

FANTOMWORKS

The world's most-watched car restoration reality TV show, FantomWorks, is back and ready to go on your network with a new season! Shop owner Dan Short epitomizes creative problem-solving and getting hands dirty to make classic cars and trucks better than the day they rolled out of the factory. With the expertise of his crew, they are all working with each owner to restore their vehicles and make their nostalgic dreams come true. Every gritty episode features two builds; a larger build that spans two episodes, and a shorter build covered from start to finish.

Buils in the new season include a full restoration on one of Don Yanko's (pioneering racer and car builder) prized 57 Corvettes, equipping a 71 Jimmy for safe family off-roading, completing a 63 Jaguar that arrives in pieces, a 65 Mustang with an exploding engine, a custom Orange Blossom roadster, a 68 Camaro restomod, and a classic 58 Harley restoration. And yes, meet the owners of the cars, see the ups and downs of the restoration process, and watch the tears flow and the cars fly on delivery day when owners are reconnected with their cars and memories.

BECAUSE RESTORATION IS FOR MORE THAN JUST CARS!

Format: Reality TV

Target Audience: Men 45 to 65

Season 1 Episodes: 10 x 1 hour

Episode 1 Pilot and Trailer available for preview
